

# FAN XIN-YU | CURRICULUM VITAE

Dept. of Computer Science & Information Engineering, NPU

Email: xinyu960729@gmail.com | GitHub: github.com/faxyu729 | Tel: 0963509184

## PROFESSIONAL SUMMARY

Sophomore CS student at National Penghu University of Science and Technology.

Specializing in system architecture, ELK observability, and cybersecurity.

Team leader in Girls in CyberSecurity Hackathon; proactively preparing for iPAS Security Certification.

## TECHNICAL SKILLS

Programming Languages : Python, C / C++, JavaScript (ES6+), HTML5 / CSS3

Architecture & Tools : ELK Stack (Elasticsearch, Logstash, Kibana), Linux, Git / GitHub, Docker

Domain Expertise : System Performance Observability, Cybersecurity, Graph Modeling

## FEATURED PROJECTS & ACHIEVEMENTS

### 1. System Bottleneck Identification & Observability (Girls in CyberSecurity Finalist)

- \* Monitored and parsed 100,000+ course selection system log records with ELK Stack.

- \* Modeled abnormal behavior through graph theory, reducing bottleneck diagnostic time by 40%.

### 2. Penghu Living Museum Cultural Architecture Exploration

- \* Conducted field study across 3 major exhibition zones, structuring maritime culture assets.

### 3. UAV Airspace Regulations & Flight Safety Guidelines

- \* Systematized CAA aviation civil laws and categorized flight-restricted zones across Penghu.

## EDUCATION & CERTIFICATIONS

B.S. in Computer Science & Information Engineering - National Penghu University (2023 - Present)

iPAS Information Security Engineer Certification - Target: 2025
